## Fentex Limited

The parent company to FWS and Gostelows. Founded in the year 2000, Fentex Limited is the largest Spill Control supplier and manufacturer in Britain with the largest range of spill control products designed, manufactured and packaged in the UK.

Fentex provide the market with optimum value products and services through a network of independent distributors.

By supplying products through distributors we are able to offer the best all-round customer service and support.

[www.fentex.co.uk](http://www.fentex.co.uk)

## Fentex Wiper Solutions (FWS)

We began supplying Industrial wet wipes to our distribution network seven years ago and decided to move to in-house manufacture mid 2019. This saw the creation of a separate, dedicated wet wipe facility near to our Head Office in Cambridgeshire.

Our extensive range of Wiper products offer the following benefits;

- British Made with shorter lead times
- Unique high performance formulas
- 100% recyclable tubs and lids

## Gostelows

In 2019 Fentex acquired Gostelows vinyl bags and leather goods. Founded in the historical city of Hull in 1926, Gostelows has been a family run business since day one, with a strong family work ethic and close working relationship between all departments as one of the longest standing leather bag, vinyl bag and knife sheath design and manufacturers in the UK.

As part of the Fentex family Gostelows proudly produce the entire range of Fentex vinyl Spill Kit bags and holdalls, Leak Diverter kits and drain filters as well as a number of bespoke products for their industry wide distributor base.

# EVO Recycled® - Absorbents

Soak up common, non-hazardous liquids quickly and easily with EVO General Purpose absorbent pads. Ideal for cleaning up fluids safely and efficiently without resorting to loose granular absorbents, often the cause of contamination and difficult to clean up. The material's strong wicking action draws liquid in making full use of each pad, maximizing cost effectiveness.

## EVO Recycled® Pads

- Safely absorb oils, fuels, water, coolant, solvents and non-hazardous liquids
- Absorbents manufactured from 85% recycled natural fibres
- Sustainable and low carbon footprint
- Higher capacity than comparable polypropylene absorbents
- Greater fluid retention avoids secondary contamination during clean up
- More cost-effective
- Fully recyclable packaging
- Ideal for companies seeking to reduce their environmental impact
- Can be used in all sectors of industry to absorb hydraulic oil, engine oil, gear oil, lubricating oil, coolant, fuels, and mild acids

## Drum Topper Pads

- 56cm diameter fits perfectly on standard drums
- Ideal for keeping drum tops free from contamination
- Triple-loft, oil preferential absorbent pads made from recycled cotton fibres
- Absorbs over 25% more than standard polypropylene pads

# EVO Recycled® - Absorbents

Cover large areas easily with absorbent rolls. Ideal for use under machinery or to catch over-spray. Perforations length-wise and across the width make it easy to use the correct amount of material.

## Spillpod® Dispenser Boxes

Spillpod® dispenser boxes with carry handles are perfect for workshops and vehicles, ideal for the mobile service engineers and workbench areas where access to a clean wiping medium is often required.

## EVO Recycled® Rolls

- Perforated along length and width for maximum economy
- Available in 6 sizes
- Higher capacity and greater fluid retention than comparable absorbents
- Can be used in all sectors of industry to absorb hydraulic oil, engine oil, gear oil, lubricating oil, coolant, fuels, and mild acids

## Applications

- As a work-mat to catch and absorb drips and leaks during component maintenance and cleaning
- As an alternative to granular material that can cause cross contamination
- To reliably and quickly absorb spills and leaks
- An integral component of Spill Kits to provide quick response to leak and spillage incidents
- Contributes to a pro-actively safe and clean working environment
- Can form part of an Absorbent Management System, contact your supplier for details

# EVO Recycled® - Absorbents

EVO General Purpose absorbent socks or booms are ideal for use around leaking machinery to keep walkways free from contamination. They absorb on contact and can be left in place to absorb oil, coolant, hydraulic oil and most workshop fluids. Socks can also be used to contain wider spills and prevent floor contamination that could contribute to slips and falls.

## Absorbent Station

- Easy access to materials to encourage pro-active maintenance
- High profile day-to-day absorbent dispensing point
- Preserves Spill Kits for unforeseen incidents
- Durable all-metal construction for use in the industrial workplace
- Eliminates loose packs of product
- Each station comes with 100 Pads, 1 Roll and 20 1.2m Socks

## Cushions

- Safely absorb all non-hazardous liquids
- Ideal for use in Drip-Trays to absorb leaked fluids easily and efficiently and to reduce further spillage during disposal of Drip-Tray contents
- Place directly under leaking hoses and fittings to absorb and contain liquids
- Place on spilled liquids to absorb cleanly and efficiently

## Land Booms

- Safely absorb oils, fuels, water, coolant, solvents and non-hazardous liquids.
- 12cm or 20cm diameter, 3 metres long
- Robust outer skin over absorbent fill
- Made from highly absorbent recycled cotton fibres from the textile industry which would otherwise be sent to landfills
- Use to surround a spillage to prevent further spreading
- Absorbs liquid on contact

## Socks

- Place at the base of leaking machinery to absorb leaks on contact and reduce the spread of contamination
- High-grade recycled material
- Strong wicking action for easy clean-up of everyday spills and leaks
- Safely absorb oils, fuels, water, coolant and solvents and non-hazardous liquids
- Suitable for use in most workshop and manufacturing applications

## PP Pads and Rolls

- Safely absorb oils, fuels, water, coolant, solvents and non-hazardous liquids
- Strong wicking action for easy clean-up of everyday spills and leaks
- Pads are perforated along centre for easy tearing
- Rolls are perforated across width and along length for easy tearing
- Polypropylene material
- Suitable for use in most workshop and manufacturing applications

## AdBlue® Absorbent Spill Kits

- Spill Kits specifically designed for dealing with AdBlue® spills and leaks
- Highly absorbent socks and pads with disposable bags included

The safe operation of refuelling facilities: PPG 7 9.1 Emission reduction solutions (ERS), for example AdBlue® (summary). If they get into the environment, ERS can seriously pollute groundwater and surface waters. It's important that they are stored, dispensed and handled correctly. ERS are soluble in water and should be kept out of surface water drainage systems that discharge to the environment. It will not be removed in an oil separator so it's important to isolate the ERS dispensing area drainage from the surface water system to reduce the possibility of spills and drips causing pollution. If this isn't possible, your site management systems should make sure any spills of ERS are cleaned up immediately with propriety sorbents.

## Mini Drain Booms

Compact mini-booms that can be deployed into drains, sumps and tanks to absorb oils and fuels.

- Can be left in-situ to absorb oil, diesel and other hydrocarbons without absorbing water
- Ideal for areas with limited access
- Super absorbent water repellent fill, held in place by an inner skin
- Outer net and metal fastening rings
- Strong inner rope along the length of the boom for added strength during handling
- Each pack absorbs up to 100 litres

## Spill Berms

Ground-hugging barriers to contain and divert spills.

- Flexible and heavy-weight
- Divert spills away from drains
- Link together with unique jigsaw ends or with corner connectors
- Heavyweight material stops liquids seeping underneath

## Heavy-weight Drain Covers

- Protect drains from hazardous spills and leaks
- Heavy-weight material stops liquids seeping underneath
- Available with wall mountable holdall to enable location near to vulnerable drains
- Ideal for routine activities, e.g. tanker offloading
- Resistant to water, oil and most chemicals
- Durable, flexible and contour-hugging
- Easy to clean and re-use

# DrainProTector

Our 3rd generation DrainProTector is available in two options, one with a unique filter design allowing oil and hydrocarbons to absorb while water safely flows away. The other is for general silt, gravel and debris. Both DrainProTectors feature our unique support straps, allowing for a huge 22kg of sediment to be held in the filter before emptying is required. We also offer XL versions of both DrainProTector designs for larger drains.

## Traps Spills and Leaks

So you don't have to worry about mess or ground contamination.

## Tough Mesh Grid

Withstands heavy use while allowing oil to soak into sorbent material.

## Non-slip Vinyl Base

Contains contaminates protecting the environment.

SpillTector® is the flexible spill absorbent and containment system designed for use under vehicles, plant, tanks and machinery. Contaminants are trapped in the unique absorbent laminate while clean rainwater is allowed to run away, making it ideal for outdoor use.

**Premier protection against leaks and spills underneath machinery or equipment.**

## Why SpillTector®

SpillTector® is the market leader for absorbent containment mats with an unrivalled range of sizes, absorbent capacity and for its unique design. SpillTector® is manufactured in the UK meaning a low carbon footprint and speedy delivery.

**Unmatched for size and performance.**

### Rain Water Flows Away

Unique design allows clean rain water to flow away.

### Flexible Sidewalls

Allow plant and machinery to be wheeled into place easily.

### Unique Sorbent Laminate

Traps oil and fuel leaks while allowing clean rainwater to flow away.

### Tough Mesh Grid

Withstands heavy use while allowing oil to soak into sorbent material.

Tough enough for the harshest working environments and with the best performance in the industry, these leak protection units are available in four sizes.

## SpillTector®

Meeting the challenge of environmental and workplace protection, SpillTector® effortlessly catches leaks and spills day-in, day-out, allowing the job to be completed without interruption.

Tough enough for the harshest working environments and with the best performance in the industry, these leak protection units are available in four sizes.

## Features

- Premier protection against leaks and spills from equipment and machinery
- Fits neatly under small plant, machinery and tanks to trap and absorb oil and fuel leaks without any interruption to the job
- Unique sorbent laminate catches and contains leaks while clean rainwater runs away, allowing work to continue without harm to the environment

# Leak Diverter

Leak Diverter deals with nuisance roof and ceiling leaks without disruption to the workplace until a permanent repair can be made. The device hangs from the roof directly under drips and leaks and diverts water to a convenient collection point. The floor beneath stays dry, the risk of slips and falls is reduced whilst damage to goods and machinery is minimised.

# Oil and Fuel - Absorbents

Booms suitable for use in situations where water is present such as marinas, docks, ponds and watercourses. These products contain hydrophobic absorbent material that only absorbs hydrocarbons such as oil and fuel and can remain deployed on water indefinitely to contain spills and safeguard the environment.

## Spaghetti Fill

- Absorbent strips in outer net (no inner sock)
- For viscous/heavy oils e.g. fuel oil
- 12cm or 20cm diameter, 3 metres long or 50cm long mini drain booms
- Robust outer net to allow ingress of contaminants
- Hydrophobic absorbent fill - will not absorb water
- Strong inner rope for added strength during handling
- Hooks and rings at each end to allow overlapping and coupling together

## Standard Fill

- Flaked absorbent filling within inner sock and outer net
- For fuels and oils
- 12cm or 20cm diameter, 3 metres long or 50cm long mini drain booms
- Robust outer net to allow ingress of contaminants
- Hydrophobic absorbent fill - will not absorb water
- Strong inner rope for added strength during handling
- Hooks and rings at each end to allow overlapping and coupling together

## Hose Nose Bag

- Hard-wearing material with double sealed edges for leak proof performance, ensuring your liquids are contained during repair or maintenance
- Contains an oil absorbent cushion to effectively absorb leaking liquids
- When the absorbent cushion has reached capacity, it can be replaced to restore your Hose Nose Bag to maximum efficiency
- Each Hose Nose features a drawstring opening to secure around the hose during work
- Minimises the risk of ground contamination, protecting the environment

# Oil and Fuel - Absorbents

Oil and Fuel absorbent socks or booms are ideal for use around leaking machinery to keep walkways free from contamination. They absorb on contact and can be left in place to absorb oils, fuels and oil-based solvents. Socks can also be used to contain wider spills and prevent floor contamination that could contribute to slips and falls.

## Absorbent Station

- Easy access to materials to encourage pro-active maintenance
- High profile day-to-day absorbent dispensing point
- Preserves Spill Kits for unforeseen incidents
- Durable all-metal construction for use in the industrial workplace
- Eliminates loose packs of product
- Each station comes with 100 Pads, 1 Roll and 20 1.2m Socks

## Cushions

- Safely absorb oils, fuels, solvents and all hydrocarbons
- Ideal for use in Drip-Trays to absorb leaked fluids easily and efficiently and to reduce further spillage during disposal of Drip-Tray contents
- Place directly under leaking hoses and fittings to absorb and contain liquids
- Place on spilled liquids to absorb cleanly and efficiently

## Land Booms

- Safely absorb oils, fuels, solvents and all hydrocarbons
- 12cm or 20cm diameter, 3 metres long
- Robust outer skin over absorbent fill
- Made from processed polypropylene offcuts and materials that would otherwise be sent to landfills
- Use to surround a spillage to prevent further spreading
- Absorbs liquid on contact

## Socks

- Safely absorb oils, fuels, solvents and all hydrocarbons
- Place at the base of leaking machinery to absorb leaks on contact and reduce the spread of contamination
- Use to surround a spillage to prevent further spreading and absorb on contact
- Strong wicking action for easy clean-up of everyday spills and leaks
- Suitable for use in most workshop and manufacturing applications

## Pads and Rolls

- Safely absorb oils, fuels, solvents and all hydrocarbons
- Strong wicking action for easy clean-up of everyday spills and leaks
- Pads are perforated along centre for easy tearing
- Rolls are perforated across width and along length for easy tearing
- Polypropylene material
- Suitable for use in most workshop and manufacturing applications

# Chemical - Absorbents

Chemical Absorbents for use on acids, alkalis and strong chemicals. Maximum absorbency without waste; easier to deploy and clean-up than indiscriminate loose granular material. Suitable for use in workshops, production areas, maintenance facilities, transport and storage areas and any situation where leaks and spills occur.
